

Summary of interests

Tom Pope, Harper Adams University

Short CV

2024-present	Harper Adams University: Professor of Applied Entomology
2018-2024	Harper Adams University: Reader in Entomology & Integrated Pest Management
2017-2018	Harper Adams University: Senior Lecturer in Entomology
2012-2017	Harper Adams University: Lecturer in Entomology
2009-2012	ADAS: Research Entomologist
2007-2008	University of Southampton: Postdoctoral Research Fellow
2004-2007	Imperial Collect London: Postdoctoral Research Associate
2000-2004	Imperial College London, PhD-Aphid Chemical Ecology
1999-2000	Bugs for Bugs, Australia
1998-1999	Imperial College London, MSc Applied Entomology
1995-1998	Wye College, London University, BSc Environmental Biology

**Harper Adams
University**

BSc at Wye College, University of London

Wye College, University of London

Glasshouse leafhopper – *Hauptidia maroccana*

Anagrus atomus

An introduction to biological control

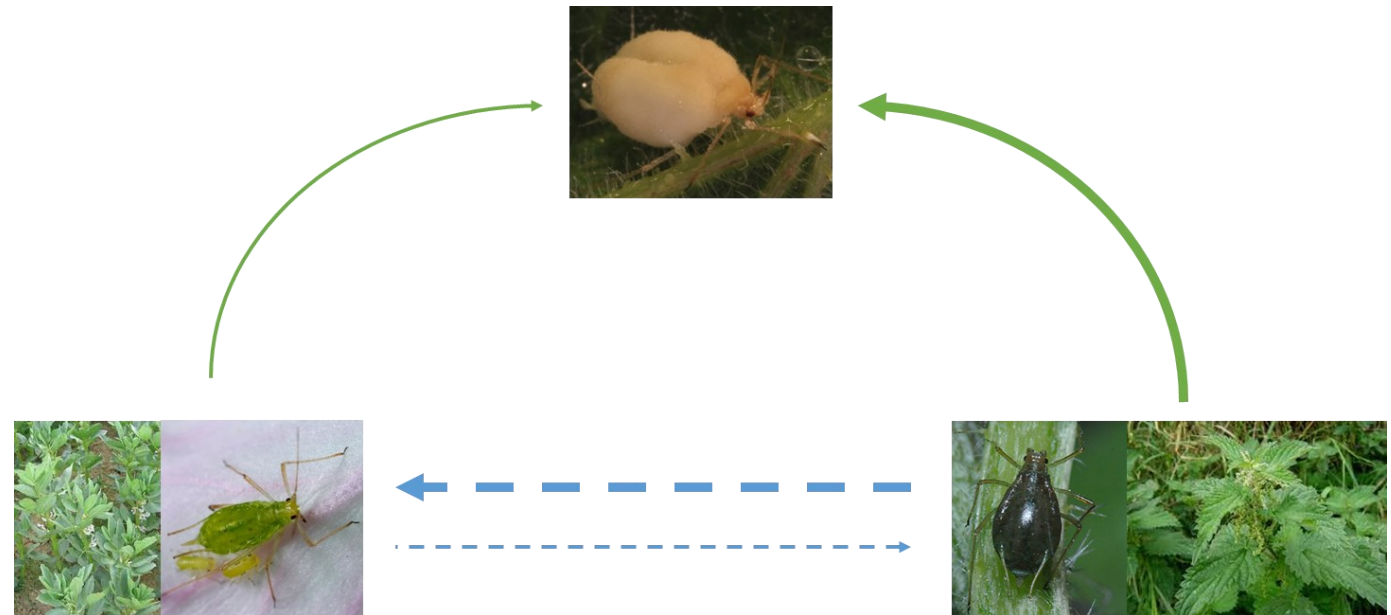

**Harper Adams
University**

Parasitised glasshouse leafhopper eggs

MSc at Imperial College London

Imperial College
London

Apparent competition between species of aphid via
fungal pathogen

Harper Adams
University

Industry experience

Biowise – producer of biological controls
based in Sussex, UK

Bugs for Bugs – producer of biological
controls based in Queensland, Australia

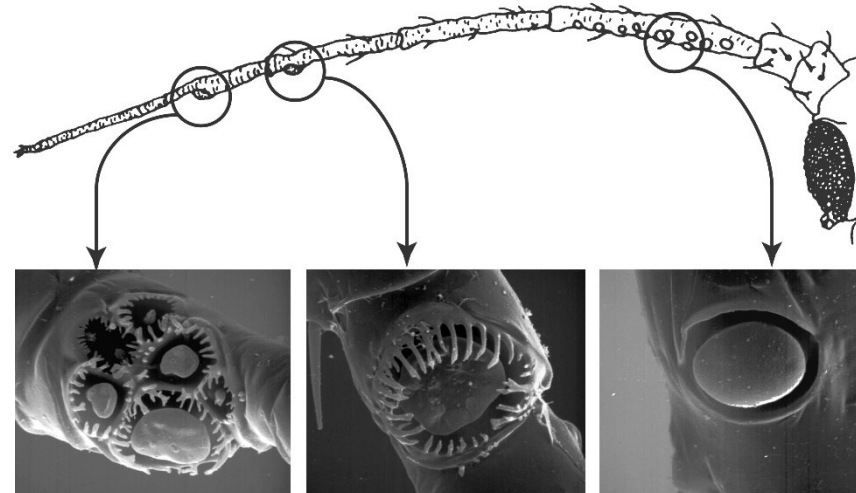

BUGS
FOR
BUGS

PhD at Imperial College London

**Harper Adams
University**

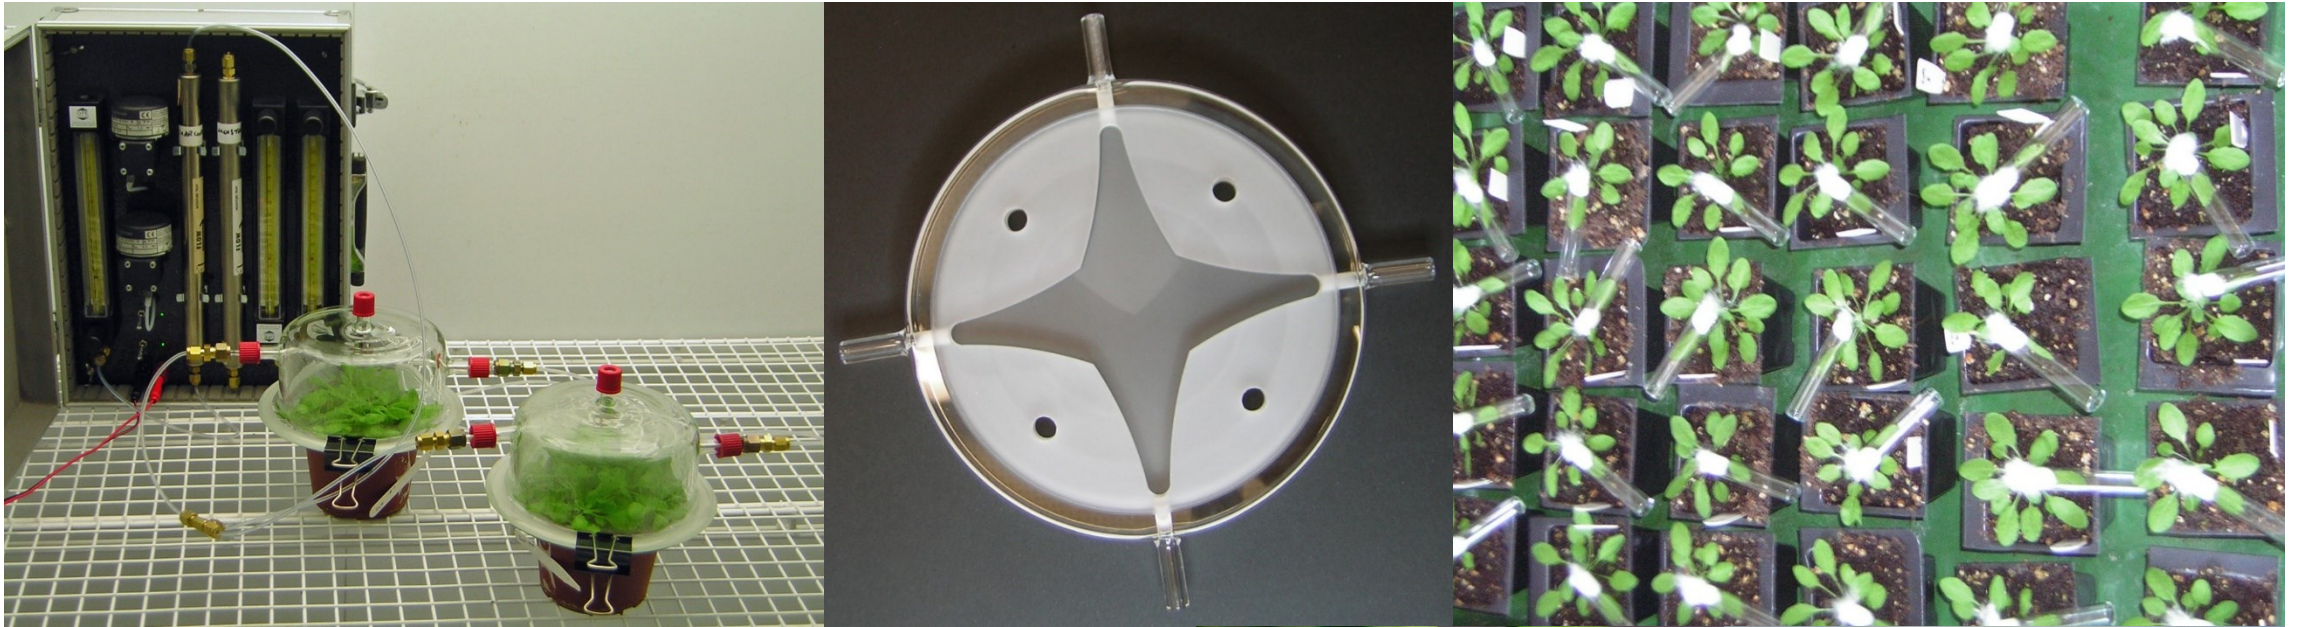

the distal primary
rhinarium

the proximal primary
rhinarium

the secondary
rhinarium

Chemical ecology of
aphids

Postdoctoral research associate at Imperial College London and University of Southampton

Glucosinolate-myrosinase system
and plant insect interactions

**Harper Adams
University**

Consultant entomologist at ADAS

Government and industry links as well as commercial research

Harper Adams
University

Professor at Harper Adams University

**Harper Adams
University**

**Harper Adams
University**

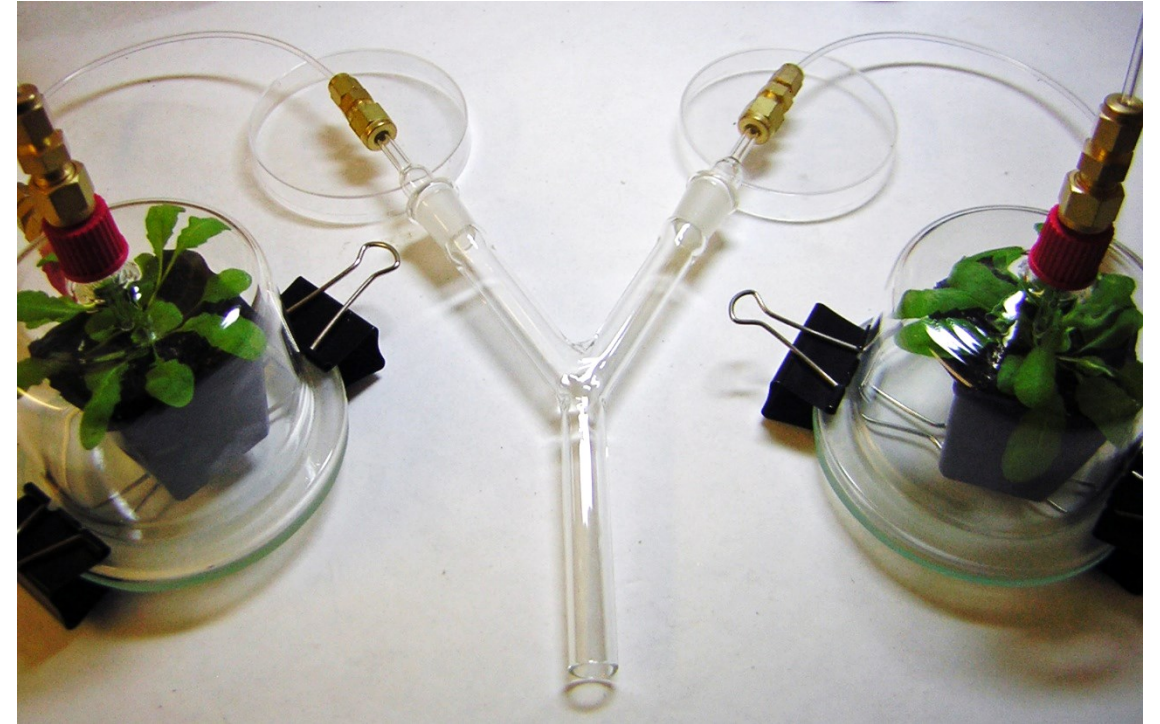

Harper Adams University

**Entomology
Group**

Research interests

Insect behavioural research – RFID, fluorescent powders and olfactometry

Harper Adams
University

Research interests

Biological control and biopesticides

**Harper Adams
University**

Developing new facilities

**Harper Adams
University**
